

Workshop Ideas For Ladies Meetings, Retreats, and Events

Think on the broad scale when choosing your workshop and activity ideas. They don't all have to have a "spiritual" connotation. We as women need sessions for learning, obtaining information, spiritual growth, fellowship, relaxation, and even fun.

Look within your church or consider another pastor's wife of like faith within driving distance. Do these ladies have a specialty or even a hobby that they could give a workshop session on? If you are in the midst of retreat planning and bringing in speakers, make sure you know what workshop topics they cover.
